

Module 8

Pandemic Planning

Written by Jeff Charlton 08700 789 999

This Pandemic Planning module examines the potential threat, hazard & risk of pandemic events such as SARS bird & swine flu.

Many of the aspects discussed may be relevant to epidemic and isolated health and safety issues where employees or their families may be affected or at risk and planning should include preparation for such events as these may have far reaching and long lasting effects.

The module covers personal protection and sanitation issues, many of which are generally misunderstood and explanation is provided to prevent unnecessary expenditure.
