

Module 40

Anthrax White Powder Event

Written by Jeff Charlton 08700 789 999

Please contact us for cost and course availability tech@999team.org

This module examines the risks hazards and response issues surrounding a white powder or suspected anthrax letter.

The module looks at various possible response issues, cost and disruption elements and best practice.

It examines what you, as an employer should or shouldn't do and what your legal obligations or responsibilities are.

The risk and cost benefits are compared to possible actions and you are left with a clear view on typical misconceptions and what you should initiate today to safeguard your business, reduce or eliminate disruptive consequence from potential real or hoax events.

Health and cross contamination and contamination control issues are explained.

The module culminates with recommended actions and requirement for decision log records.
